THIS IS RESPONSIBLE FOR THE RE. TURN OF MR. MORRISSETT.

Manchester Cittzen Argues in Favor of the C. and O. Improvements- Negro's Remarkable Presence of Mind.

MAKORTATER BUREAU, RICHMOND TIMES, No. 1121 HULL STREET, BRATTIE BLOCK, Mr. Allen Floyd Morrisaett, the West Point cadet who returned home yesterday, received a letter from the War Department yesterday, stating that the cause of his failure to pass the examination was due solely to denciency in in June, 1894, and remained until Jan-

mathematics. He entered the Academy uary II, 1897, being found dencient in mathematics at the semi-annual examination. The course is very rigid, and great proficiency is required in order to obtain a good class standing. Mr. Morrisect, was a member of the fourth class, who are known in the upper classes as the "piebes." An attempt will be made to get the Secretary of War to order a new examination. If the Secretary issues this order, there is a good showing for some of those discharged for deficiency to be returned.

T. L. King, a very worthy colored man of Manchester, was brought to his home, at No. 1617 Hull street, hast might, with a badly sprained and bruised leg.

King is a trusted employe of the Tredegar Company. White attempting to
put on a beit, his foot and leg managed
in some way to get caught in the putiey,
and if it had not been for his presence
of mind and being a very strong man,
death would probably have resulted. He
had hold of an iron bar when he got
caught with the beit, and with a keen
insight to his danger, he grasped the
iron with all his strength, and pulled
himself from his perilous position. He

ing for it will probably lose all. The one-third of the bridge which was to be made when lowered was to be built of lasting material, and would relieve the city of one-third of the expense of keeping the bridge in repair. Besides all this, the distance over which we have to walk our horses would be only two-thirds what it is now.

If the vladuct is inclosed for some distance on each side of the bridge I don't think horses would notice the cars passing overhead as much as they do now on the Richmond side. Then Manchester people going into Richmond would not be blockaded on the Richmond side of the bridge by the trains, which frequently delay them considerably."

Mr. Daffron went on to say the expenditure of \$2,000,000 just on the horder line of Manchester would certainly put some money to circulating in Manchester. He said if the work will cost \$2,000,000, that means about \$1,500,000 to be spent in labor. Of that amount Manchester would certainly get a portion. He spoke of the great amount of sione that would be used, and said the stone would hardly be brought from a distance, when the best granite quarries in the country are on the Southern road, not far from Manchester.

Food strength is natural strength. It is new strength; created strength. That is, it is not stimulation.

The real strength of your body is your constitutional strength, your reserve strength. It is the result of eating proper food and digesting it.

Eating food does no good at all; rather harm—unless it is digested. So that everything narrows itself down to one proposition: How is your digestion?

One person in three of us have indigestion in some form or another. It is not really a disease, but a condition, a condition which may become serious. We all wish to be strong, and we might all become so if we disested our food. The loss of your strength is a serious matter. It may be the beginning of a dargerous disease. It may mean that you cannot go on with your work.

Shaker Digestive Cordial is an aid to digestion. It is a strength-maker. It makes your food neurish you. It makes you strong. It relieves at once all the symptoms of acute dyspepsia, tones up the system, and crestes lesh, energy, and strength. Faken regularly, it will permanently cure indigestion, and make the weak, thin, irritable, nervous dyspeptic, streng, fat, hearty, and well again.
